Property Management

Whether for a single location or a nationwide portfolio of properties, we help clients effectively manage real estate assets as a key component of their business strategies.

Our real estate attorneys advise on a full spectrum of property management matters for corporate campuses, office buildings, industrial parks, multifamily projects and mixed-use projects.

We work closely with landlords, property management companies, developers, investors, asset managers, and corporate owners on all aspects of owning, operating and managing properties, including negotiating and documenting agreements for property management, construction management, tenant improvement buildouts, lease listing and sale listing agreements, tenant leases, vendor service agreements, and tenant disputes.
