

---

We have an extensive mergers and acquisitions practice that allows us to have an intimate understanding of market conditions and terms and the latest innovations in structuring transactions. In just the past five years, we have completed hundreds of transactions throughout the United States and abroad. We represent public and private corporations, private equity firms, hedge funds and leveraged buy-out groups in all types of acquisition structures. These transactions have ranged in size from the relatively small, where the purchase may be focused on a specific technology or group of skilled employees, to the very large, involving mature businesses or highly valued assets, properties or technology. We represent clients in both buy-side and sell-side transactions.
